Registration, web filing and payment, full-service account management, integration with third-party payment engines and back-end enterprise content management are all provided by the Taxpayer Portal. Complete online account management features, as well as the capability to coordinate service requests initiated online with internal cases is included. Service requests can be configured as needed to comply with specific information the Agency needs for different taxes, unique service needs, or taxpayer groups. The Taxpayer Portal architecture can also be extended easily, integrated within the Agency's site, and branded to be consistent with the Agency's existing content.

Tester Name	Laura Renfro
Notes/Unique to this Testing	The VPAT testing was a representative approach and not solely scenario driven. Testing was based on the DHS Trusted Tester Methodologies and included assistive technology. Log in, all ribbons and toolbars were tested. The application is expansive, and effort was made to follow normal operating cues and trails throughout the application. This software is largely accessible.

For purposes of this test, “Supports” means largely satisfies, and “Partially Supports” means satisfies any percentage above zero.

The enclosed data documents a product’s conformance with VPAT accessibility standards from Section 508 of the Rehabilitation Act of 1973, and 29 U.S.C. § 794(d). Data in this report reflects results which were obtained under a controlled environment. As such, duplication of tests may yield different results. Deviation from the data presented in this report may result from user error, software updates, differing legal jurisdiction, internet browser utilized, device used, or any other alteration, however slight, of the testing environment. Renfro Consulting does not guarantee that results will be identical in every scenario and is not responsible for any inconsistencies.
